Night is the terrifying record of Elie Wiesel's memories of the death of his family, the death of his own innocence, and his despair as a deeply observant Jew confronting the absolute evil of man. This new translation by his wife and most frequent translator, Marion Wiesel, corrects important details and presents the most accurate rendering in English of Elie Wiesel's seminal work.

Writing Awesome Answers to Comprehension Questions (Even the Hard Ones) Oct 12 2020 Help students appreciate texts and write about them with conviction. Responding to a comprehension question is a surprisingly complex task. It draws on multiple skills: students must be able to read and analyze a text passage; consider what aspect of the text the question addresses; and then quickly and concisely write about their ideas, citing evidence to support them. Hence the prominence of constructed-response questions in standardized testing. In this refreshingly clear and upbeat guide, literacy consultant Nancy Boyles gives a step-by-step demonstration of how to help students achieve success with this task—and in the process of unpacking the steps involved, demonstrates how the instruction can inspire teachers' creativity as well as deepen students' literacy skills. Filled with ready-to-use scaffolds for every stage of instruction—sets of sample questions, anchor charts, cue cards, answer frames—this is a one-stop resource for teaching students how to organize their thoughts about what they've read, and then set them down in writing.

Religion in Late Modernity Apr 05 2020 Religion in Late Modernity runs against the grain of common suppositions of contemporary theology and philosophy of religion. Against the common supposition that basic religious terms have no real reference but are mere functions of human need, the book presents a pragmatic theory of religious symbolism in terms of which the cognitive engagement of the Ultimate is of a piece with the cognitive engagement of nature and persons. Throughout this discussion, Neville develops a late-modern conception of God that is defensible in a global theological public. Against the common supposition that religion is on the retreat in late modernity except in fundamentalist forms, the author argues that religion in our time is a stimulus to religiously oriented scholarship, a civilizing force among world societies, a foundation for obligation in politics, a source for healthy social experimentation, and the most important mover of soul.

The 'Powers' of Personification Sep 03 2022 While scholars have often found value in comparing Wisdom and Romans, a comparison of the use of personification in these works has not yet been

made, despite the striking parallels between them. Furthermore, while scholars have studied many of these personifications in detail, no one has investigated an individual personification with respect to the general use of the trope in the work. Instead, most of this research focuses on a personification in relation to its nature as either a rhetorical device or a supernatural power. The 'Powers' of Personification seeks to push beyond this debate by evaluating the evidence in a different light - that of its purpose within the overall use of personification in the respective work and in comparison with another piece of contemporaneous theological literature.

The Personification of Wisdom Aug 02 2022 This book examines the personification of Wisdom as a female figure - a central motif in Proverbs, Job, Sirach, Wisdom and Baruch. Alice M. Sinnott identifies how and why the complex character of Wisdom was introduced into the Israelite tradition, and created and developed by Israelite/Jewish wisdom teachers and writers. Arguing that by personifying Wisdom the authors of Proverbs responded to Israel's defeat by Babylon and the loss of Davidic monarchy, and by retrieving and transforming the Wisdom figure the authors of Sirach, Baruch and Wisdom responded to the spread of Hellenism and the potential loss of identity for Jews. Sinnott concludes that personified Wisdom functioned to reinterpret and transform the Israelite/Jewish tradition.

Machines of the Mind Aug 10 2020 "Katharine Breen challenges our understanding of how medieval authors received philosophical paradigms from antiquity in their construction and use of personification in their writings. She shows that our modern categories for this literary device (extreme realism versus extreme rhetoric, or novelistic versus allegorical characters) would've been unrecognizable to their medieval practitioners. Through new readings of key authors and works--including Prudentius's "Psychomachia," Langland's "Piers Plowman," Boethius's "Consolation of Philosophy," and Deguileville's "Pilgrimage of Human Life"--she finds that medieval writers accessed a richer, more fluid literary domain than modern critics have allowed. Breen identifies three different types of personification--Platonic, Aristotelian, and Prudentian--inherited from antiquity that both gave medieval writers a surprisingly varied spectrum with which to paint their characters, while bypassing the modern confusion of conflicting relationships between personifications and persons on the path connecting divine power and human frailty. Recalling Gregory the Great's phrase "machinae mentis" (machines of the mind), Breen demonstrates that medieval writers applied personification with utility and subtlety, much the same way that, within the category of hand-tools, an open-end wrench differs in function from a hex-key wrench or a socket wrench. It will be read by medievalists working at the crossroads of religion, philosophy, and literature, as well as scholars interested in character-making and gendered relationships among characters, readers, and texts beyond the Middle Ages"--

Socrates and Legal Obligation Feb 02 2020 Socrates and Legal Obligation was first published in 1981. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. Charged with "impiety" and sentenced to death under the law of Athens, Socrates did not try to disprove the charges or to escape death, but rather held to a different kind of rhetoric, aiming not at persuasion but at truth. In Socrates and Legal Obligation, R.E. Allen contends that Plato's works on Socrates' acceptance of death—the Apology and the Crito — should be considered together and as such constitute a profound treatment of law and of obligation to law. Allen's study of Socrates' thought on these vital issues is accompanied by his own translations of the Apology and the Crito.

In *Jung's Answer to Job: A Commentary*, the author argues that such neglect is due to a failure to understand Jung's objectives in this text and offers a new way of reading the work. A detailed commentary on the work discusses the major methodological presuppositions informing it and explains how key Jungian concepts operate in the text. *Jung's Answer to Job: A Commentary* unravels Jung's narrative by reading it in the chronological order of the biblical events in analyses and the books to which it refers, offering a comprehensive re-reading of Jung's text.
