Paul's Lifesong of Joy and Unity Sep 08 2020 When Paul and Silas were in prison in Philippi, they burst into singing. Paul looked at life with a joyful song. He found delight when believers lived in harmony. The theme of this Bible study is Paul's Life-Song. Hear his song in the letter he wrote to Philippi, even while in another prison. Some strains explode with joy, while other stanzas carry a minor melody to encourage or warn the people he loved. Study his messages and learn how to apply Paul's attitudes regardless of his circumstances. This Bible study is rich with insights into the Hebrew and Greek and covers themes Paul brings from the Old Testament or other New Testament teachings. Dive deeper into those themes by taking important excursions into the background of the topics. This in-depth verse-by-verse investigation is valuable for individuals or groups. Enjoy the commentary while completing the workbook and applying the messages to everyday situations. Determine your timeframe for the study as you discover what the Lord Jesus wants to do in your life through Paul. I've had the privilege of knowing Sharon Gresham as a teacher/speaker for many years and now as a writer. Her commitment to in-depth study and application of the Bible is refreshing. The Philippians study equips the pastor/teacher with a resource much needed in the church today. I am excited to teach this study both in our church and as we minister internationally. Darrel Auvenshine, pastor of Southside City Church, Fort Worth, Texas With a gift for accurately communicating God's Word in a relevant and personal way, Sharon Gresham's in-depth study of Philippians will delight and thrill any serious student of the Scriptures. I highly recommend it! Scott Whitson, director of missions, Southwest Metroplex Baptist Association and former missionary to Tanzania

Core Themes In Social Work: Power, Poverty, Politics And Values Nov 03 2022 "This book sheds a very bright light on poverty as a central experience of the people social workers work with. Research and theories of power, politics and values are thoroughly discussed and provide the basis for a sustained commitment to social justice. The book is a supportive read as it skilfully appreciates the personal challenges that critical and assertive practice entails. It is a book for students, professionals and service leads to keep, re-read and savour." Dr Tillie Curran, Senior Lecturer in Social Work, University of the West of England, UK "By identifying power, poverty, politics and values as core themes in social work, this text offers us a refreshing perspective which will challenge students and practitioners alike to re-evaluate their practice in the light of its wider social, political and philosophical contexts. Through an exploration of issues of power and an interrogation of the real meaning of social work ethics and values, Sheedy motivates and encourages us to reflect on our practice and to ensure that it is truly person-centred." Dr Sue Taplin, University of Nottingham, UK "This book offers a concise and coherent discussion of what should be core themes in thoughtful and careful social work practice. It offers a journey towards rethinking and embracing effective critical practice, which engages with human rights and social justice as much as with empowerment and with individual and interpersonal change. Occasional student accounts, coupled with use of key points and questions for discussion make for accessibility. The book synthesises, summarises and critiques ideas about how to understand and resolve social issues, enabling readers to question how they might work creatively alongside service users. It is a book which invites

reflection on policy and practice." Professor Michael Preston-Shoot, Dean, Faculty of Health and Social Sciences, University of Bedfordshire, UK "This excellent text is essential reading for all social workers and students, and a key resource for academics. It highlights - with concern and conviction - the importance of developing an effective critical practice that 'challenges, enhances and broadens the task of conventional social work' in ways that have 'the potential to improve outcomes for service users'. It calls for a social work practice based on an understanding of the issues of power, politics and ideology - and the values and 'world view' held by the worker - linked with concerns raised by the people that social workers regularly encounter and work with. The issues of 'poverty and disadvantage' and their structural causes run throughout this text - issues that have been too long neglected in social work. In this text, Martin Sheedy corrects that neglect by outlining in some detail the impact of poverty on people's lives and life chances whilst at the same time describing how critical practice can be used by social workers to promote social justice and empowerment practices." Dr Pamela Trevithick, Visiting Professor in Social Work, Buckinghamshire New University, UK This engaging book introduces the core themes in social work, and encourages students and practitioners to connect with the important debates surrounding these themes and challenges them to revisit the direction social work is and should be going in. The key contexts of social work are explored using knowledge from the disciplines of social theory, politics, sociology, psychology and ethics. The content is enlivened by: The voices of students, service users and practitioners Current and topical content on social work, poverty, politics, power and values A discussion style format to help readers engage with the topics An extensive range of sources of knowledge and theory Key summary points at the end of each chapter Group discussion questions at the end of each chapter This book will contribute to social work students' and practitioners' thinking about the world in which they live and operate as professionals.

The 48 Laws Of Power May 29 2022 THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power. _____ (From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would

say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

When Hell Becomes Your Home: How I Survived 14 Years In Prison. Dec 12 2020 A self-help book drawn from the author's elite military training and autobiographical experiences over the course of being forced to survive for fourteen years within the confines of a notorious privately owned Corrections Corporation of America prison in the state of Tennessee. This is not just a self-help manual for the incarcerated or interested parties, but rather a rich detailed account of how an elite soldier survived a personal journey through a world of extreme emotional and psychological duress, violence, death, corruption, prison politics, and survival while refusing to join a prison gang for protection. This is the experienced knowledge of a soldier who is forced to become a prison convict and continue, seemingly alone, upon a dangerous warrior's path which ultimately culminates into a personal spiritual journey. If experience is the most cruel teacher of all than the tools, knowledge, wisdom, and insights shared within the pages of this book were acquired through unadulterated cruelty.

Handover of Power - Education Aug 27 2019 Education rethought Do you also sometimes worry that learning gives you more anxiety than pleasure? And do you also wish for an environment where you can learn everything easily and quickly? How can an education system cater to teachers and learners at the same time? This book tells us: ... how learners can choose suitable teaching methods - depending on their learning type - and decide for themselves when they want to learn which knowledge from the curriculum. ... how teachers and learners can democratically administer their educational institution themselves and together become researchers and developers who produce products or realise inventions in an alliance. ... which educational paths everyone can take in order to learn the parts they want from the knowledge available worldwide at any time. After 20 years of work on this book series, Andreas Seidl thus ventures a step towards founding a party. In doing so, he entertains his readers both intellectually and visionarily. 14 Miles Jul 19 2021 An esteemed journalist delivers a compelling on-the-ground account of the construction of President Trump's border wall in San Diego—and the impact on the lives of local residents. In August of 2019, Donald Trump finished building his border wall—at least a portion of it. In San Diego, the Army Corps of engineers completed two years of construction on a 14-mile steel beamed barrier that extends eighteen-feet high and cost a staggering \$147 million. As one border patrol agent told reporters visiting the site, “It was funded and approved and it was built under his administration. It is Trump's wall.” *14 Miles* is a definitive account of all the dramatic construction, showing readers what it feels like to stand on both sides of the border looking up at the imposing and controversial barrier. After the Department of Homeland Security announced an open call for wall prototypes in 2017, DW Gibson, an award-winning journalist and Southern California native, began visiting the construction site and watching as the prototype samples were erected. Gibson spent those two years closely observing the work and interviewing local residents to understand how it was impacting them. These include April McKee, a border patrol agent leading a recruiting program that trains teenagers to work as agents; Jeff Schwilk, a retired Marine who organizes pro-wall rallies as head of the group San Diegans for Secure Borders; Roque De La Fuente, an eccentric millionaire developer who uses the construction as a promotional opportunity; and Civile Ephedouard, a Haitian refugee who spent two years migrating through Central America to the United States and anxiously awaits the results of his asylum case. Fascinating, propulsive, and incredibly timely, *14 Miles* is an important work that explains not only how the wall has reshaped our landscape and countless lives but also how its shadow looms over our very identity as a nation.
