No More Secondhand Art Dec 19 2021 This book is about using art as an instrument of personal transformation, enabling us to move from an inherited to a chosen state of being. Peter London offers inspiration and fresh ideas to artists, art students, and art teachers—as well as to people who think they can't draw a straight line but want to explore the joys of creative expression. Inside every person, he believes, there is an original, creative self that has been covered over by secondhand ideas, borrowed beliefs, and conditioned behavior. By freeing the capacity for visual expression—a natural human language possessed by everyone—we can awaken and release the full powers of that original self. Among the topics and exercises included are: • How to increase the ability to visualize, fantasize, and dream • Obstacles to the creative encounter and what to do about them • Experimenting with art media as true mediators between imagination and expression • Making masks to reveal the hidden self • Painting with "forbidden" colors • Arranging found objects as metaphors for one's life

*Mastering Creative Anxiety* Sep 04 2020 In his decades as a psychotherapist and creativity coach, Eric Maisel has found a common thread behind what often gets labeled "writer's block," "procrastination," or "stage fright." It's the particular anxiety that, paradoxically, keeps creators from doing, completing, or sharing the work they are driven toward. This "creative anxiety" can take the form of avoiding the work, declaring it not good enough, or failing to market it — and it can cripple creators for decades, even lifetimes. But Maisel has learned what sets successful creators apart. He shares these strategies here, including artist-specific stress management; how to work despite bruised egos, day jobs, and other inevitable frustrations; and what not to do to deal with anxiety. Implementing these 24 lessons replaces the pain of not creating with the profound rewards of free artistic self-expression.

*Expressive Drawing* Mar 22 2022 The many people who long to draw?but feel too intimidated to try?will rejoice at the wonderful first entry in this brand-new creative series. Written by arts educator Steven Aimone, it's packed with solid, friendly, hands-on instruction, as well as inspiring images, and backed by the trusted AARP name. Aimone teaches an accessible style called expressive drawing that emphasizes line and mark, rather than rendering a specific object, which for many people, can create barriers to self-expression. Exercises start off simple and quick, encouraging readers to work on instinct and feeling, while the later ones focus on detail and refinement. The book features hundreds of images of work by well-known artists from DeBuffet to Jim Dine?and each chapter includes a profile of someone who came to drawing late in life and achieved recognition.

*Art Without Rules* Feb 27 2020 This coloring book serves as a place to create visual art and poetry and to record feelings and thoughts based upon life experience. It is a creative writing journal that can be used as a sharing tool in all healing, support, and wellness groups including those patterned upon the 12 steps such as AA, ACOA, CoDA, GA, FA, OA, NA, and many other self-help, and self-improvement groups. Trauma survivors will enjoy this book. It is a playground for the inner-child. Too many people have mistakenly learned that they have no artist within ---and no imagination--- because they lack drawing skills to represent a particular thing realistically. They do not know that such skills can be taught to anyone who wants to learn. Each of us has an artist within; we only need to access it and give it an avenue to express. Thousands of us have had negative experiences with our art being criticized by others in a way that feels bad. Fear and failure have become associated with making art. A million or more of us have wrongly concluded that we are not creative! These conclusions must be exposed as wrong! Thirty-three half-finished sketches and more than seventy universal themes on these pages offer the reader some guidance to create personalized symbols, images, ideas, and representations of their inner world. This book challenges false conclusions about creativity through the provided exercises. It frees the artist from the inability to draw realistically in order to artistically express emotions resulting from life's difficulties. This self-development journal offers opportunities to explore-play-relax-increase mindfulness and experience a taste of the power of art therapy. Its non-judgmental approach affirms that any unique marks the art makers add to the sketches within are "good-enough," and that the skills of Rembrandt are not necessary. It is suitable for use with markers, colored pencil, crayon, pastel, and collage. It provides encouragement and valuable affirmations in artistic form. Why make art? Your purpose is worth consideration. Is it only to make a work of beauty? The exercises in this book encourage the user to create authentic artistic self-expression. Users can learn to see and draw realistically later if they are motivated. This coloring book is not intended to help the user make beautiful art objects that have a monetary value. Measuring art's value by its ability to "sell" is a mistake that causes many creative

people to feel like a failure and deprives them of joyful self-nurturing experience and healthy coping skills in a troubled insecure world. Art makers can find ways to defuse painful feelings, change focus, make decisions, and/or go to a place of insight that can help transcend problems. It renames artmakers as "Heart Warriors" because they explore the less accepted shadow side of themselves in order to change and grow. The making of art can increase awareness of life patterns and universal themes for each person's exploration using metaphors and symbols. It includes quotations by Georgia O'Keefe, Henri Matisse, Vincent van Gogh, and Carl Jung. The user is introduced to Oregon licensed art therapist Marsha Yates ATR-BC, and is invited to share artwork on a public internet platform with other users in a safe place.

**Mushin** Dec 07 2020 The highest level of consciousness in martial arts is mushin, or "no mind," a state that provided the samurai with no fear of death. To achieve this state is considered the summit of martial arts and Zen practice. But how do you get there? Traditionally the answer has been to train again and again. With twenty years of experience and a black belt in Seiyō No Shorin-Ryu karate, Dr. Ernst Arnold does not dispute the vital importance of training. Instead he combines traditional thought with modern scientific knowledge to help students understand and reach mushin. After providing basic principles of Zen thought, Dr. Arnold dissects the teachings of four of the most respected masters of traditional martial arts: Miyamoto Musashi, Gichin Funakoshi, Masutatsu Oyama, and Bruce Lee. From there he moves into the modern scientific world, explaining what the masters intuitively understood and adding practical strategies of his own. Mushin offers new ways to see and train while upholding traditional approaches. By combining the old with the new, he hopes to point the way to readers to make the leap from martial artisans to true artistry.

**Fearless Creating** Dec 27 2019 For writers, painters, or performers in any field, new hope for overcoming creative blocks and finishing the art of their dreams. The blank page, empty canvas, or uncarved stone will often fill artists with dread. But so may the thought of finishing, showing, or even selling their work. It is in this "artistic anxiety" that creative blocks begin. With an understanding that could only be gained through years of experience in counseling artists, writers, and performers, Eric Maisel, Ph.D. discusses each stage of creation-wishing, choosing, starting, working, completing, selling--and the anxieties particular to each. He then shows how these inhibiting tensions can be turned to artistic advantages, how truth and beauty arrive in the work of art precisely because, and only when, anxiety has been understood, embraced, and resolved. *Fearless Creating* guides the reader, whether an experienced artist or someone just starting out, past the pitfalls that appear in each stage of the process. By following Dr. Maisel's exercises related both to the world at hand and the ongoing struggles of artistic life, readers will emerge from this book with a completed work of art and a new perspective on their potential to be a fearless creator.
