Reaping billions in drug profits that dwarf even his oil empire, he compels American intelligence to turn a blind eye until he

cultivates new clients in the Middle East. Leighton, an assassin with a checkered past in covert operations, is assigned to kill Cortland in Costa Rica as he vacations with his mistress. But when Leighton's escape plan mysteriously fails, he goes to ground as the agency sends an old flame in harm's way to smoke him out. Paula Grant carries the proof that Leighton's assignment was a rogue operation, but even she does not know if her true mission is to rescue him, or flush him before the guns of the agency's contract killers. Evading a nationwide manhunt, Leighton and Paula come to realize they threaten the forces that engineered Cortland's death, forces that have penetrated their own agency and arranged to sabotage the dead industrialist's promising synthetic fuel .

**John Deere Snowmobiles** Jan 15 2021 Long respected as a manufacturer of sturdy agricultural machinery, the John Deere Company began in the 1960s to build a line of consumer products in a dedicated factory in Horicon, Wisconsin. Starting with a lawn and garden tractor in 1963, Deere soon entered the fast-growing snowmobile market, introducing two models in 1971. The next 13 years would see a succession of models as Deere vied against tough competitors in a weather-dependent market. This detailed history, written by two key participants in the snowmobile program, describes the development of John Deere snowmobiles from start to finish: the design and engineering decisions that shaped each important model; reception of the snowmobiles by consumers; the factory race teams; the introduction of front-engine and water-cooled models; the process of selecting engines and negotiating with suppliers, including when problems developed; and the snowmobiles' impact on product engineering. The text provides an inside view of Deere's Consumer Products Division at a time of rapid growth, and of the people and processes that made it all happen.
