The House Plant Expert Jun 16 2019 The House Plant Expert is one of the books in the Expert series written by the world's best-selling gardening author. Quite simply, the best-selling gardening book in the world. Over a million copies have been sold in the U.S, and nearly 14 million worldwide. According to one reviewer - "after the Bible, the best-selling reference book of all time." In a basketful of countries it has taught people how to choose and care for their indoor plants. Its style of dealing with each plant with drawings, photographs and no-nonsense text has become a legend in the publishing world. If you have house plants (and who doesn't?) you need this book.

Gardening Indoors Oct 01 2020 Sets the standard for indoor gardening with lights worldwide. Van Patten unlocks the world of indoor gardening under fluorescent and high intensity discharge (HID) lamps, both of which help seedlings and low-light plants start earlier and grow stronger. Combining the basics of gardening and electrical lighting know-how in one easy-to-use volume, he shows readers of all levels how to get the most out of hydroponics.

Don't Repot That Plant! Jun 09 2021 Why is my plant dying? Will Creed answers your indoor plant care questions that are not answered anywhere else - providing real answers to real questions non-professionals have about caring for their plants. Other plant care books perpetuate many of the out-of-date or unrealistic techniques or confusing information that has changed very little over generations. Included here are specific care requirements for dozens of the most popular house and office plants. Learn to care for your plants properly, from buying the right plant for the right place, to preventing or treating disease. Don't repot that plant! Repotting is rarely necessary. A plant may seem rootbound- but it loves its pot just the size it is. It is healthy, it is thriving. Contrary to conventional wisdom, repotting a plant isn't always the answer. Get the light right - make sure you have the right light intensity available for the particular plant species Learn how much each plant species needs to dry out Learn to prune Learn to identify plant pests and treat them early Don't bother about humidity and fertilizer/plant food

[Plant Society](#) Jun 28 2020 Plant Society is your 101 guide on how to love and keep indoor plants. Even if you've killed every house plant in the past, plant-cultivator and stylist Jason Chongue will show you that it's really not that difficult. Covering everything from basic plant care and re-potting, to plants suited to pets and propagating, this book will help remove your fear of gardening and inspire you to create your own indoor oasis. It includes profiles of 25 ideal tropical indoor plants, organised from the most low-maintenance species through to the more exotic and labor-intensive plants. On top of this, the book offers styling advice including how to decorate different rooms in your home with plants, as well as suggestions on pots and planters to give your plants more personality. Throughout the book, you'll also find interviews with 'Plant People' from around the world, who provide an insight into their unique relationships with house plants. Indoor gardening really is this simple and fun!

The Unexpected Houseplant Aug 31 2020 It's time for plant lovers to dust off their houseplants, update their image, and discover just how exciting, trendy, and crucial plants can be in the home. The Unexpected Houseplant, by renowned plant authority Tovah Martin, isn't your typical, old-fashioned, dowdy houseplant book. Martin's approach is revolutionary-picture brilliant spring bulbs by the bed, lush perennials brought in from the garden, quirky succulents in the kitchen, even flowering vines and small trees growing beside an easy chair. Martin brings an evangelist's zeal to the task of convincing homeowners that indoor plants aren't just a luxury-they're a necessity. In addition to design flair, houseplants clean indoor air, which can be up to ten times more polluted. Along with loads of visual inspiration, readers will learn how to make unusual selections, where to best position plants in the home, and valuable tips on watering, feeding, grooming, pruning, and troubleshooting, season by season.
