Whence They Came Jan 15 2021 Until recently, immigration policy was largely in the hands of a small group of bureaucrats, who strove desperately to fend off "offensive" peoples. Barbara Roberts explores these government officials, showing how they not only kept the doors closed but also managed to find a way to get rid of some of those who managed to break through their carefully guarded barriers. Robert's important book explores a dark history with an honest and objective style.

[The Preservation of History in Fairfax County, Virginia](#) Jan 03 2020 The Preservation of History in Fairfax County, Virginia presents an overview of one urban county's efforts to retain its historic and archaeological sites in the face of increasing developmental pressures during the past thirty-five years. It provides a thorough review of historical development in the county as well as practical guidance on how decisions were developed. Written by two distinguished historians, Ross and Nan Netherton, who were part of the process from the beginning, this study presents a perspective which only familiarity with its successes and failures can bestow. This book is both a historical survey and a "how-to" manual for government officials and preservationists.

LBJ Dec 02 2019 For almost forty years, the verdict on Lyndon Johnson's presidency has been reduced to a handful of harsh words: tragedy, betrayal, lost opportunity. Initially, historians focused on the Vietnam War and how that conflict derailed liberalism, tarnished the nation's reputation, wasted lives, and eventually even led to Watergate. More recently, Johnson has been excoriated in more personal terms: as a

player of political hardball, as the product of machine-style corruption, as an opportunist, as a cruel husband and boss. In LBJ, Randall B. Woods, a distinguished historian of twentieth-century America and a son of Texas, offers a wholesale reappraisal and sweeping, authoritative account of the LBJ who has been lost under this baleful gaze. Woods understands the political landscape of the American South and the differences between personal failings and political principles. Thanks to the release of thousands of hours of LBJ's White House tapes, along with the declassification of tens of thousands of documents and interviews with key aides, Woods's LBJ brings crucial new evidence to bear on many key aspects of the man and the politician. As private conversations reveal, Johnson intentionally exaggerated his stereotype in many interviews, for reasons of both tactics and contempt. It is time to set the record straight. Woods's Johnson is a flawed but deeply sympathetic character. He was born into a family with a liberal Texas tradition of public service and a strong belief in the public good. He worked tirelessly, but not just for the sake of ambition. His approach to reform at home, and to fighting fascism and communism abroad, was motivated by the same ideals and based on a liberal Christian tradition that is often forgotten today. Vietnam turned into a tragedy, but it was part and parcel of Johnson's commitment to civil rights and antipoverty reforms. LBJ offers a fascinating new history of the political upheavals of the 1960s and a new way to understand the last great burst of liberalism in America. Johnson was a magnetic character, and his life was filled with fascinating stories and scenes. Through insights gained from interviews with his longtime secretary, his Secret Service detail, and his closest aides and confidants, Woods brings Johnson before us in vivid and unforgettable color.

Shepherding Movement Dec 14 2020 An engaging history of the Shepherding Movement, an influential and controversial expression of the charismatic renewal in the 1970s and 1980s. This neopentecostal movement, led by popular Bible teachers Ern Baxter, Don Basham, Bob Mumford, Derek Prince and Charles Simpson, became a house church movement in the United States. The Shepherding Movement is a case study of an attempt at renewing church structures. Many critics accused the movement of being authoritarian because of its emphasis on submission to a personal pastor or "shepherd" as they termed it.

The Shadow Warriors: O.S.S. and the Origins of the C.I.A. Jul 29 2019

This is an account of the nation's first intelligence agency, the Office of Special Services (O.S.S.) — how it operated, what it accomplished, and how it laid the basis for the present Central Intelligence Agency — and how its charismatic founder, “Wild Bill” Donovan, established control over it, recruited its staff, and, most importantly, sold Roosevelt, the armed services, the Allies, and the rest of the country on the agency's varied — and often bizarre — shadow warfare missions during World War II. The O.S.S.'s special relationship with the British, the key role of academics and its embarrassing connection with the Soviets' N.K.V.D. are also addressed. Smith concludes that the creation of the C.I.A. after the war owed less to the accomplishments of the O.S.S. than to Donovan's public relations skills and the precarious military situation the country found itself in at the time. “Mr. Smith... has done an exhaustive job of research on the O.S.S. and Donovan... the book offers an honest, lively portrait of an important American and the contributions, good and bad, that he and the O.S.S. made to the American intelligence system... Much of this book can be read for the pleasure of observing a genuine American character in action. Mr. Smith, who does not fawn on his subject, captures Donovan's kinetic energy and vision.” — Philip Taubman, *The New York Times* “This may be as close to a definitive medium-length history of OSS as we are likely to get. It draws fully on the extensive original files now available (both American and British) and on the recent flood of secondary writing... The author has a sure grasp of the basic history of the war. His narrative chapters put OSS firmly into that wider context, and his perspectives and judgments ring true. And there are excellent chapters on the usually neglected Research and Analysis section and on the relations between OSS and Soviet intelligence agencies... an important book.” — *Foreign Affairs* “[A]most certainly the most balanced study to date of the ‘shadow’ or ‘irregular’ warfare that was the special province of OSS... Resting on an impressive amount of research into unpublished manuscript collections in both this country and Great Britain, [The Shadow Warriors] is a convincing account, in large measure because its author retains a balance in his conclusions even as he does not hesitate to render firm judgments.” — *The Public Historian* “Bradley F. Smith has produced a carefully researched, lucid study of... the Office of Strategic Services (OSS)... Smith deserves recognition for writing the most comprehensive study to date on the origins of United States central intelligence.” — *The Journal of American History* “Bradley Smith has undertaken a formidable task in writing this history of the Office of Strategic Services which is the most reliable record to date of its wide range of activities during the Second World War... an audacious book that is fascinating for its disclosures and entertaining to read.” — *The Slavonic and East European Review* “Bradley Smith... credits the OSS with accomplishments in support of the military, but considers shadow warfare dangerously overvalued... The book is... humanly interesting at the same time that it addresses the very largest moral and military questions.” — *Kirkus*

Jefferson's Memorandum Books, Volume 1 Feb 02 2020 Among the Second Series of The Papers of Thomas Jefferson, this volume has the most detailed coverage of his day-to-day life. These disciplined records of

personal expenditures, and of various other daily observations, furnish valuable information about prices and availability of commodities of the period and provide abundant evidence of Jefferson's devotion to a systematic way of living and of his insatiable curiosity. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Decisions and Orders of the National Labor Relations Board Jun 07 2020

Such Splendid Prisons Sep 03 2022 In the chaotic days after the bombing of Pearl Harbor, the Roosevelt administration made a dubious decision affecting hundreds of Axis diplomats remaining in the nation's capital. To encourage reciprocal treatment of U.S. diplomats trapped abroad, Roosevelt sent Axis diplomats to remote luxury hotels—a move that enraged Americans stunned by the attack. This cause célèbre drove a fascinating yet forgotten story: the roundup, detention, and eventual repatriation of more than a thousand German, Japanese, Italian, Bulgarian, and Hungarian diplomats, families, staff, servants, journalists, students, businessmen, and spies. *Such Splendid Prisons* follows five of these internees whose privileged worlds came crashing down after December 7, 1941: a suave, calculating Nazi ambassador and his charming but conflicted wife; a wily veteran Japanese journalist; a beleaguered American wife of a Japanese spy posing as a diplomat; and a spirited but naive college-aged daughter of a German military attaché. The close, albeit luxurious, proximity in which these Axis power emissaries were forced to live with each other stripped away the veneer of false prewar diplomatic bonhomie. Conflicts ran deep not only among the captives but also among the rival U.S. agencies overseeing a detention fraught with uncertainty, duplicity, lust, and romance. Harvey Solomon re-creates this wartime American period of deluxe detention, public outrage, hidden agendas, rancor and racism, and political machinations in a fascinating but forgotten story.

The Sepoy and the Raj Nov 24 2021 This is the first scholarly study of the subject for twenty years, and the only one based on extensive archival research. The Indian Army conquered India for the British, and protected the Raj against its enemies within and without. In this evocative and compassionate work, David Omissi examines the origins, motives and protests of the several million Indian peasant-soldiers who served the colonial power.
