*Cyberspace Security: A Primer* Jun 01 2020 Cyberspace has become a playground for everyone. Financial institutions, online shopping, e-commerce, e-governance, communication networks and almost all agencies – civil, military and private make continuous use of cyberspace. At the same time spying by certain agencies on daily life of all seems to resurface the fears of George Orwellian's 1984 classic. While the internet is an essential means for most to conduct their daily lives, the Deep Web, nearly 395 times the size of internet permits untraceable activities to normal and evil doers with similar ease. The ease and efficiency provided by the cyberspace, alas comes with the risk of cyber criminals threatening its very benefits. It has already provided undreamt reach to terrorists to launch their attacks worldwide. Even Nation States have not shied away from extensive use of cyberspace for unethical purposes. Attribution – an essential precondition to initiate retaliatory measures is extremely difficult in cyberspace. It is like the Wild West with no Sheriff to enforce law and order. How does then One ensure safety in cyber space operations? This Primer is the basic step towards cyberspace security. It offers suggestions at all the levels of cyberspace in simple language minus the jargon.

*Limitation Of Liability in International Maritime Conventions* Sep 16 2021 Limitation of liability for maritime claims is a concept of respectable antiquity which is now deeply entrenched in the maritime industry. Under this concept, the shipowner is entitled to limit his liability for maritime claims up to a maximum sum regardless of the actual amount of the claims. The concept of limitation of liability has been adopted by many conventions ranging from those relating to the carriage of goods by sea, carriage of passengers and their luggage by sea, liability and compensation for pollution damage, to liability for the removal of wrecks. Each of these conventions has its own approach to limitation of liability. However, these

particular liability regimes share the international arena with global limitation conventions such as the 1976 Convention on Limitation of Liability for Maritime Claims and the 1996 Protocol thereto. This book approaches limitation of liability from an international perspective looking at a number of key conventions including the global limitation conventions, the conventions relating to the carriage of passengers and their luggage by sea (1974 Athens Convention relating to the Carriage of Passengers and Their Luggage by Sea and the 2002 Protocol thereto), conventions relating to liability and compensation for pollution damage (1969 International Convention on Civil Liability for Oil Pollution Damage and the 1992 Protocol thereto, the 1996 International Convention on Liability and Compensation for Damage in Connection with the Carriage of Hazardous and Noxious Substances by Sea and the 2010 Protocol thereto, and the 2001 International Convention on Civil Liability for Bunker Oil Pollution Damage), as well as the 2007 Nairobi International Convention on the Removal of Wrecks. Each chapter of this book sets out to analyze provisions in the conventions which have proved to be controversial and subject to debate by courts and authors, as well as the relationship between the limitation provisions in claim specific liability conventions and in the global limitation conventions. Particular attention is also given to the persons entitled to limit liability, ships in respect of which liability can be limited, claims subject to limitation, claims excepted from limitation, basis of liability (where applicable), loss of the right to limit, and the limits of liability. Limitation of Liability in International Maritime Conventions is of interest to academics and practicing lawyers who wish to understand the intricacies of the law of limitation.

**Austin, Cleared for Takeoff** Mar 10 2021 Austin, Texas, entered the aviation age on October 29, 1911, when Calbraith Perry Rodgers landed his Wright EX Flyer in a vacant field near the present-day intersection of Duval and 45th Streets. Some 3,000 excited people rushed out to see the pilot and his plane, much like the hundreds of thousands who mobbed Charles A. Lindbergh and The Spirit of St. Louis in Paris sixteen years later. Though no one that day in Austin could foresee all the changes that would result from manned flight, people here—as in cities and towns across the United States—realized that a new era was opening, and they greeted it with all-out enthusiasm. This popularly written history tells the story of aviation in Austin from 1911 to the opening of Austin-Bergstrom International Airport in 1999. Kenneth Ragsdale covers all the significant developments, beginning with military aviation activities during World War I and continuing through the barnstorming era of the 1920s, the inauguration of airmail service in 1928 and airline service in 1929, and the dedication of the first municipal airport in 1930. He also looks at the University of Texas's role in training pilots during World War II, the growth of commercial and military aviation in the postwar period, and the struggle over airport expansion that occupied the last decades of the twentieth century. Throughout, he shows how aviation and the city grew together and supported each other, which makes the Austin aviation experience a case study of the impact of aviation on urban communities nationwide.

*Have I Got Dogs for You!* Jun 13 2021 *Have I Got Dogs For You!* continues its exploration of daily life in London's Paddington Recreation Ground. The society pictured in this account is a unique one, an ever-changing kaleidoscope of dogs and their owners. The dogs represent most of the popular breeds and many of the mutt-like mixtures as so do their accompanying humans, who come from diverse nationalities and from many walks of life: professionals and job seekers, young and old, family members and loners. They are united in their love of dogs, and on the central green of the park, on its walkways and at the caf where they gather after exercising their animals, they often let this affection for dogs carry them into friendships that transcend park life and involve many of them in additional social activities. The book is also the story of Fritz the Schnauzer and provides a daily record of his antics and the folkways of the rest of the crew, human and canine. Not only do we have an insight into the relationship of man and beast but a glimpse into London life as it experienced in the first decade of the 21st Century. Such a life, we know, is full of struggles and tensions and these are certainly reflected in this chronicle and so is a lot of good canine fun.

**Ablutions** Dec 19 2021 From the author of Booker Prize finalist *The Sisters Brothers*: "Viciously hilarious . . . deWitt's portrayal of the drinking life is staunchly unromantic." —*Time Out New York* In a famous, but declining, Hollywood bar works a barman, morbidly amused by the decadence of his surroundings. He quietly observes as the patrons fall into their nightly oblivion, taking notes for his novel. In the hopes of uncovering their secrets and motives, he establishes tentative friendships with a cast of variously pathological regulars. But as his tenure at the bar continues, he begins to serve himself more often than his customers, and the time he spends outside the bar becomes more and more painful. He loses his wife, his way, himself. Trapped by habits and loneliness, the barman realizes he will not survive if he doesn't break free. And so he hatches a terrible, necessary plan of escape and redemption. "Sharp and bitter and funny" (*Los Angeles Times*), *Ablutions* steps behind the bar and goes below rock bottom for a brilliant new twist on the classic tale of addiction and its consequences "so punctuated with tiny, heartbreaking moments of grace—it becomes impossible to put the book down" (*Portland Mercury*). "Dark and provocative . . . 'Ablutions' has achieved something remarkable." —*The New York Times Book Review* "Melancholic, sentimental, and very funny." —*Harper's Bazaar (UK)* "As heartbreaking as it is hilarious . . . an utterly compelling novel." —*The Believer*
