The Startup Owner's Manual Jun 09 2021 More than 100,000 entrepreneurs rely on this book for detailed, step-by-step instructions on building successful, scalable, profitable startups. The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book, and it's taught at Stanford, Berkeley, Columbia and more than 100 other leading universities worldwide. Why? The Startup Owner's Manual guides you, step-by-step, as you put the Customer Development process to work. This method was created by renowned Silicon Valley startup expert Steve Blank, co-creator with Eric Ries of the "Lean Startup" movement and tested and refined by him for more than a decade. This 608-page how-to guide includes over 100 charts, graphs, and diagrams, plus 77 valuable checklists that guide you as you drive your company toward profitability. It will help you: • Avoid the 9 deadly sins that destroy startups' chances for success • Use the Customer Development method to bring your business idea to life • Incorporate the Business Model Canvas as the organizing principle for startup hypotheses • Identify your customers and determine how to "get, keep and grow" customers profitably • Compute how you'll drive your startup to repeatable, scalable profits. The Startup Owner's Manual was originally published by K&S Ranch Publishing Inc. and is now available from Wiley. The cover, design, and content are the same as the prior release and should not be considered a new or updated product.

New Ways to Teach Using Cable Television Jul 30 2020 "I'm impressed! I had little idea that cable TV could be such a valuable resource for classroom instruction at all grade levels. It deserves a place alongside the computer as an essential means for learning and communicating in our technological society." Jim Palavras, Principal, Paul P. Gates Elementary School, Acton, Massachusetts "This timely book offers educators an introduction, as well as a æhow-to' on using cable television in the classroom. Anyone with an academic interest in using cable television should read this encouraging book." Linda J. Miles, Library Media Specialist, Nottingham West Elementary School, Hudson, New Hampshire "Randi Stone has given educators a æpath to follow.' Provides a thorough yet practical approach for all us nontechnical classroom teachers." Elaine Driscoll Connolly, Teacher, Andover Public Schools, Massachusetts New Ways to Teach Using Cable Television is a unique guide that helps you unlock the riches of cable television in your classroom. Randi Stone, a 1996 Continental Cablevision National Cable Educator Award Winner, shares her experience in teaching with cable TV. Caters to techno-phobes as well as teachers already using cable who are looking for hot new ideas. Written in an easy-to-read, conversational style, this guide describes the programming offered to educators and the wealth of free support materials you can receive. Provides you with winning lesson plans, dozens of tips from award-winning teachers using cable in the classroom, and Internet connections. Use this time-saving guide to: *

Steel Designers' Manual Fifth Edition: The Steel Construction Institute Dec 03 2020 This classic manual for structural steelwork design was first published in 1956. Since then, it has sold many thousands of copies worldwide. The fifth edition is the first major revision for 20 years and is the first edition to be fully based on limit state design, now used as the primary design method, and on the UK code of practice, BS 5950. It provides, in a single volume, all you need to know about structural steel design.

Recovery of the Lost Good Object Dec 23 2019 Recovery of the Lost Good Object brings together the hugely influential papers and seminars of Eric Brenman, revealing his impact on the development of psychoanalysis and allowing a better

understanding of his distinctive voice amongst post-Kleinian analysts. Gathered together for the first time in one volume, Eric Brenman's papers give the reader a unique insight into the development of his clinical and theoretical thinking. They highlight many issues which are relevant to the present debate about psychoanalytic technique, including: The Narcissism of the Analyst Hysteria The Recovery of the Good Object Relationship Meaning and Meaningfulness Cruelty and Narrowmindedness The Value of Reconstruction in Adult Psychoanalysis The second half of the book documents three of the clinical seminars and covers the transgenerational transmission of trauma, the analysis of borderline pathology and the psychoanalytical approach to severely deprived patients. This collection will be welcomed by all psychoanalysts and psychotherapists, and other members of the helping professions interested in investigating the valuable contribution that Eric Brenman has made to contemporary psychoanalysis.

Franchising and Licensing Dec 15 2021 As an experienced corporate and transaction lawyer, author Andrew Sherman offers insider insights into unique opportunities for business growth--specifically, leveraging your intellectual capital through franchising and licensing. By helping you understand what intellectual capital is, what revenue your company is entitled to, and how to manage these intangible assets, he provides the knowledge and tools necessary to keep your business not only operating, but growing in any economy. Filled with illuminating examples, stories from the field, and dozens of forms for drafting franchising agreements and licensing programs, Franchising & Licensing simplifies the strategic, legal, financial, and operational aspects of these complex but highly profitable business strategies. Readers will learn how to: raise capital, structure agreements, and protect intellectual property; create market-responsive sales, marketing, and globalization strategies; establish quality control and compliance measures; and assess opportunities for mergers and acquisitions, joint ventures, and other alternatives to franchising--among many other essential insights. Plus, the fourth edition incorporates up-to-the-minute information on regulations, best practices, web strategies, branding techniques and global trademark laws, the new FDD disclosure format, and the latest franchising trends. Comprehensive and applicable to domestic and international franchising initiatives alike, this go-to guide remains the industry standard for insights on expanding your business.

Performing with Computer Applications Aug 31 2020 Previously entitled "Computer Applications for the New Millenium," this new edition has been revised and added to the Performing series. Renowned author Iris Blanc introduces word processing, Internet, desktop publishing, spreadsheet, database, and presentation concepts through sequential practice material. The book is non-software specific so its exercises can be used with any software or operating system.

Contemporary Ideas on Ship Stability Jun 21 2022 Widely publicised disasters serve as a reminder to the maritime profession of the eminent need for enhancing safety cost-effectively and as a strong indicator of the existing gaps in the stability safety of ships and ocean vehicles. The problem of ship stability is so complex that practically meaningful solutions are feasible only through close international collaboration and concerted efforts by the maritime community, deriving from sound scientific approaches. Responding to this and building on an established track record of co-operative research between UK and Japan, a Collaborative Research Project (CRP) was launched in 1995. This volume includes selected material from the first four workshops: 1st in University of Strathclyde, July 1995 organized by Professor Vassalos; 2nd in Osaka Japan, Osaka University, November 1996 organized by Professor Masami Hamamoto; 3rd in Crete Greece, Ship Design Laboratory of the National Technical University of Athens (NTUA-SDL), October 1997 organized by Professor Apostolos Papanikolaou; and 4th in Newfoundland Canada, Institute for Marine Dynamics, September 1998 organized by David Molyneux. It contains 46 papers that represent all currently available expertise on ship stability, spanning 17 countries from around the world. The framework adopted for grouping the papers aims to cover broad areas of ship stability in a way that it provides a template for future volumes.

Performing with Word Processing Applications Oct 01 2020 This new book on word processing is a fallout of the newly revised "Performing with Computer Applications."

His Wife Leaves Him Oct 25 2022 This prose fiction novel, written by literary prizewinner Stephen Dixon, replicates the consciousness of a jilted man. Stephen Dixon, one of America's great literary treasures, has completed his first novel in five years — His Wife Leaves Him, a long, intimate exploration of the interior life of a husband who has lost his wife. His Wife Leaves Him is as achingly simple as its title: A man, Martin, thinks about the loss of his wife, Gwen. In Dixon's hands, however, this straightforward premise becomes a work of such complexity that it no longer appears to be words on pages so much as life itself. Dixon, like all great writers, captures consciousness. Stories matter here, and the writer understands how people tell them and why they go on retelling them, for stories, finally, may be all that Martin has of Gwen. Reminders of their shared past, some painful, some hilarious, others blissful and sensual, appear

and reappear in the present. Stories made from memories merge with dreams of an impossible future they'll never get to share. Memories and details grow fuzzy, get corrected, and then wriggle away, out of reach again. Martin holds all these stories dear. They leaven grief so that he may again experience some joy. Story by story then, he accounts for himself, good and bad, moments of grace, occasions for disappointment, promises and arguments. From these things are their lives made. InHis Wife Leaves Him, Stephen Dixon has achieved nothing short of the resurrection of a life through words. When asked to describe his latest work, the author said that "it's about a bunch of nouns: love, guilt, sickness, death, remorse, loss, family, matrimony, sex, children, parenting, aging, mistakes, incidents, minutiae, birth, music, writing, jobs, affairs, memory, remembering, reminiscences, forgetting, repression, dreams, reverie, nightmares, meeting, dating, conceiving, imagining, delaying, loving." His Wife Leaves Him is Dixon's most important and ambitious novel, his tenderest and funniest writing to date, and the stylistic and thematic summation of his writing life.

 LEARNING AND TEACHING Jul 18 2019 The book thoroughly explains various theories and concepts applied in the field of learning and teaching. It orderly describes effective techniques and methods by using descriptive analytical approach and methodology. It covers in the intelligible form a wide spectrum of information inclusive of that required for the compulsory paper "Learning and Teaching" incorporated in the curriculum of B.Ed. courses of various Indian universities in accordance with the guidelines of National Council for Teacher Education (NCTE). The book discusses the nature and importance of learning theories propagated by behaviourists, cognitivists and humanists. It also focuses on pedagogy, andragogy, models of teaching, tasks and process of learning, strategies of teaching, learning styles, concepts of e-learning and m-learning in the applications of ICT. KEY FEATURES : • Full coverage of syllabi of all the Indian universities • Diligently arranged chapters for the sequential learning • Comprehensive explanation with illustrative examples and case studies • Explicit figures, tables and diagrams for easy interpretation • Summary at each chapter-end for quick review The book is primarily intended to B.Ed. students. Besides, the text is also of immense value to the students of B. EL Ed., M.Ed., MA (Ed.), M.Phil., and teachers, training professionals and counsellors.
