They are not shepherded through life and are entirely self-sufficient. Confident, capable, charismatic—they are masters of their own destiny in the jungle. As a keystone species, they are catalysts for creation. Would you rather be a tiger or a sheep? *The Tiger CEO* is a book that hones your leadership skills with the wiles and wisdom of a tiger's tactics in the wild. Many leadership books allude to the idea of the "tiger" in you. This book draws parallels between feline traits and those of great leaders, ranging from Gandhi to Elon Musk. It not only highlights the manner in which iconic biodiversity conservation leaders such as Jim Corbett have protected and studied the species but also how their own behaviour has been impacted by it. Broken down into eleven distinct sections, this book attempts to adapt the lessons learnt from a tiger's day to day behaviour consciously into our work and our lives. Master the skills, strategy and strength of a tiger to become the king of your own jungle.

A Tiger Remembers Mar 05 2020 Born in the Year of the Fire Tiger, Ann Wee moved to Singapore in 1950 to marry into a Singaporean Chinese family. One of Singapore's pioneering social work educators, Ann shares her experiences frankly and with great humour. She remembers the things that history books leave out: questions of hygiene, the emotional nuance in social relations, stories of ghost wives and changeling babies, rural clan settlements and migrant dormitories, what was lost and gained when families moved into HDB estates. Affectionately observed and wittily narrated, with a deep appreciation of how far Singapore has changed, this book brings to life the country's social transformation by talking about the family, "in its 101 different shapes and sizes, with its capacity to cope which ranges from truly marvellous to distinctly tatty; still, in one form or another, the best place for most of us to be".

The Tiger Nov 05 2022 It's December 1997, and a man-eating tiger is on the prowl outside a remote Russian village. The tiger isn't just killing people, it's annihilating them, and a team of men and their dogs must hunt it on foot through the forest in the brutal cold. As the trackers sift through the gruesome remains of the victims, they discover that these attacks aren't random: the tiger is apparently engaged in a vendetta. Injured, starving, and extremely dangerous, the tiger must be found before it strikes again. As he re-creates these extraordinary events, John Vaillant gives us an unforgettable portrait of this spectacularly beautiful and mysterious region. We meet the native tribes who for centuries have worshipped and lived alongside tigers, even sharing their kills with them. We witness the arrival of Russian settlers in the nineteenth and early twentieth centuries, soldiers and hunters who greatly diminished the tiger populations. And we come to know their descendants, who, crushed by poverty, have turned to poaching and further upset the natural balance of the region. Beautifully written and deeply informative, *The Tiger* circles around three main characters: Vladimir Markov, a poacher killed by the tiger; Yuri Trush, the lead tracker; and the tiger himself. It is an absolutely gripping tale of man and nature that leads inexorably to a final showdown in a clearing deep in the taiga.

Every Man a Tiger Jan 03 2020 General Chuck Horner was the right man in the right place at the right time. Combining a broad experience of all aspects of aerial warfare with a deep respect for and knowledge of Arab culture, Horner commanded the U.S. and allied air assets during Desert Shield and Desert Storm - the forces of a dozen nations - and was responsible for the design and execution of one of the most devastating air campaigns in history. Never before have the Gulf air war and its planning, a process filled with controversy and stormy personalities, been revealed in such detail. Beyond that, however, *Every Man a Tiger* is the story of two revolutions: of how a service damaged by Vietnam reinvented itself through vision, determination, and brutally hard work - in Horner's words, "We had to learn how to be an Air Force all over again" - and of how war changed fundamentally in the last decade of this century, not only in the new dominance of air power, but in all its aspects.
