**Every Word You Cannot Say** Oct 29 2019 \*\*I know you don't want to talk sometimes. The Seven Words You Can't Say on Television Sep 20 2021 Why do so many swear words involve sex, bodily functions and religion? Why are some words rude and others aren't? Why can launching into expletives be so shocking • and sometimes so amusing? Steven Pinker takes us on a fascinating and funny

journey through the world of profanities, taken from his bestselling *The Stuff of Thought*, to show us why we swear (whatever our language or culture), how taboos change and how we use obscenities in different ways. You'll discover that in Quebecois French the expression *•Tabernacle•* is outrageous, that the Middle Ages were littered with four-letter words, that *•scumbag•* has a very unsavoury origin and that in a certain Aboriginal language every word is filthy when spoken in front of your mother-in-law. Covering everything from free speech to Tourette's, from pottymouthed celebrities to poetry, this book reveals what swearing tells us about how our minds work. (It's also a bloody good read).

words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller  *Guitar Zero*  At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
