*Gray Morris's Calculate with Confidence, Canadian Edition - E-Book* Feb

24 2020 Learn to calculate dosages accurately and administer drugs safely! Gray Morris's *Calculate with Confidence, Second Canadian Edition* uses a clear, step-by-step approach to make drug dosage calculations easy. More than 2,000 practice questions help you review basic math and then master the three standard methods of dosage calculation: ratio and proportion, formula, and dimensional analysis. With the increasing responsibility of the nurse in mind, emphasis is placed on critical thinking and clinical reasoning in preventing medication errors. Reflecting current practice in Canadian health care, this book also provides excellent preparation for Canadian licensure exams! SI measurement units and generic/Canadian drug names are included throughout the text. Practice problems and real-world examples help students master correct dosage calculations and safe medication administration, with rationales included in practice problem answers to enhance the understanding of principles. Tips for Clinical Practice boxes summarize information critical to math calculation and patient safety. Safety Alert! boxes highlight common medication errors and identify actions that must be taken to avoid calculation errors. Chapter Review problems test student knowledge of all major topics presented in the chapter. Pre-Test review includes practice problems to help students assess their basic math skills and identify their strengths and weaknesses, covering fractions, decimals, percentages, and ratio and proportion. Post-Test in Unit One allows students to assess and evaluate their understanding after completing the chapters on basic math. Comprehensive Post-Test at the end of the book covers dosage calculations and conversions, using real-life drug labels and situations. NCLEX® exam-style questions on Evolve help students prepare for the type of questions seen on the NCLEX-RN® Examination. NEW! Next Generation NCLEX-RN® exam-style case studies on the Evolve website provide drug calculation practice for the Next Generation NCLEX Examination. NEW! Increased number of Clinical Reasoning exercises builds students' critical thinking skills, with a focus on preventing medication errors. NEW! Thoroughly updated content includes the latest Health Canada-approved medications, current drug labels, the latest research, Canadian statistics, commonly used abbreviations, and recommended practices related to medication errors and their prevention. NEW! A-Z medication index references the page numbers where drug labels can be found. NEW! Tips for Clinical Practice from the text are now available on Evolve in printable, easy-reference format.

**The Primary Care Toolkit for Anxiety and Related Disorders** Sep 13 2021 Primary care physicians know from experience how many patients come to them needing help with anxiety and related disorders: these disorders have a lifetime prevalence rate of 30%, but they often seem to be present in a much higher proportion of primary care visits. Time pressure challenges every primary care provider who responds to these disorders. The Primary Care Toolkit for Anxiety and Related Disorders—carefully aligned with the DSM-5—gives you the tools to help you treat your patients promptly and effectively. Quickly find the information and strategies you need using summaries of diagnostic criteria and pharmacological therapies, severity assessments, treatment summaries, and case studies. Efficiently screen, diagnose, and manage common anxiety and related disorders, using visit-by-visit guides for mild, moderate, and severe disorders. An accompanying CD puts the best, most effective diagnostic tools at your fingertips, ready to be printed and used by you and your patients: patient self-report forms and questionnaires, symptom checklists, functional impairment assessment scales, and more. The Primary Care Toolkit helps prepare you for the 7 anxiety and related disorders that primary care physicians see most often: Generalized anxiety disorder, Panic disorder, Agoraphobia, Social anxiety disorder, Obsessive-compulsive disorder, Posttraumatic stress disorder, Adjustment disorder. Whether you are a family physician, an ER doctor, a pharmacist, a nurse or nurse practitioner, or a medical student, the information and resources in The Primary Care Toolkit for Anxiety and Related Disorders will add to your clinical primary care knowledge and skills.

11+ Confidence: Practice Exam Papers Practice is the key to success. Pupils need experience in deciding and documenting their answers efficiently. They need total familiarity with the spectrum of multiple choice questions, and with the layout of question papers and response sheets. The Eureka! 11+ Confidence series of Exam Papers provides: Question papers laid out in modern, multiple-choice format Answer sheets laid out in modern format (in places requiring digit-by-digit entry) Full answers with explanations Supplementary books giving very detailed methods, tips and tricks on the more challenging aspects of Numerical Reasoning In supporting your child's preparation for the exam: Do as much exam paper practice as possible. Variety helps retain attention. Cut out the multiple choice answer sheet and use it to record the answers. Maximizing authenticity now minimizes exam-day anxiety. Do these practice exams formally: seated alone, away from television and radio. Immediately afterwards, encourage the pupil to mark their own work. Insist on discussing the questions which were not answered correctly. Do not set aside any errors as "silly mistakes." All mistakes are silly. The key to 11+ is attention to seemingly small details. Doing exam papers is a learning opportunity. Underline the importance of discovering how errors were made and how they may be prevented in future. Tips, tricks and (most of all) systematic approaches for avoiding the major traps at 11+ are given in the associated "Eureka! Challenging Maths and Numerical Reasoning Exam Questions for 11+ " series of books. Thoughtful support from parents can be crucial for pupils in the run-up to examinations. Use the Eureka! Practice Exam Papers and Numerical Reasoning training books to help them reach their full potential.
